

Gleam Guard

REFINISHING BREAKTHROUGH

Gleam Guard was founded in 1987 as a leader in the technology of dust free restoration and refinishing of kitchen cabinets and interior wood. Long before their involvement with Gleam Guard, Jim Urban and Craig Shenton were craftsmen with wood. Jim still has the first specialty table he made from Honduras mahogany and burl walnut way back in the 1960s. Craig has done professional woodworking and home building for 40 years. He was also an art teacher for 10 years, and those skills are a real help when it comes to matching colors and restoring custom finishes. Jim and Craig work all sorts of projects at Gleam Guard including kitchen, laundry and bathroom cabinets; molding, doors, paneling and floors, they consider every piece of wood an art project. Jim's father was a home builder and a craftsman as well, he always said "If you wouldn't be proud to sign your name to it and stand behind your work, then don't do it." That's the philosophy behind Gleam Guard.

WHAT DON'T PEOPLE KNOW

We always restore & refinish one of your cabinet doors in your presence so you can see for yourself how Gleam Guard restoration will improve the appearance of your cabinets before you commit. It's like test driving a car before you buy.
